

Master Bathroom

Overview

The Master Bathroom is on the 3rd Floor with 20 entities. The primary smart devices are two TP-Link KS205 smart switches: one controlling a towel heater (for heated towel rail) and one for a shower timer/exhaust switch.

Entity count: 20 | **Floor:** 3rd Floor

Devices

Device	Manufacturer	Model	Integration
Bathroom Towel Heater	TP-Link	KS205	tplink
Bathroom Shower Switch	TP-Link	KS205	tplink

Switches

Entity	Notes
Bathroom Towel Heater	Smart switch for heated towel rail
Bathroom Towel Heater Auto-off enabled	Auto-off timer feature
Bathroom Shower Switch	Smart switch for shower exhaust or secondary circuit
Bathroom Shower Switch Turn off in	Number entity — auto-off timer (minutes)

Notes / Gotchas

- Both KS205 switches support auto-off timers — the Bathroom Shower Switch Turn off in number entity sets the auto-off duration.

- These switches do not currently have automation coverage — they are manually controlled or scheduled.
