

Patio

Overview

The Patio is a small outdoor entertaining area on the Ground Floor with 12 entities. It has a TP-Link KS205 switch (Porch light), a Lutron pendant dimmer, and a few associated switches.

Entity count: 12 | **Floor:** Ground Floor

Devices

Device	Manufacturer	Model	Integration
Porch	TP-Link	KS205	tplink + switch_as_x
Living Room Pendants	Lutron	DVRF-6L (DivaSmartDimmer)	lutron_caseta

Lighting

Entity	Type	Notes
Porch	TP-Link KS205 → light (switch_as_x)	Porch/patio light; auto-off capable
Living Room Pendants	Lutron dimmer	Patio-adjacent pendant lights

TP-Link Porch features:

- `Porch Auto-off enabled` — timed auto-off
- `Porch Auto-update enabled`
- `Porch LED` — status indicator

Notes / Gotchas

- "Living Room Pendants" (Lutron) is registered under the `patio` `area_id` — this is because these pendants are physically on the patio side of the living/patio space.
- The Porch KS205 is exposed as both a `switch` and a `light` via the `switch_as_x` integration (entry ID: `01KGVC6667EY13D9V1M4F47RN2`).
